To Whom It May Concern:

Riddle Hospital and John S. McManus, Inc. have enjoyed a wonderful relationship that has spanned over 30 years. John S. McManus, Inc. was the general contractor for Riddle's Health Center 2, which was built in 1983 and the two-floor expansion on top of that same building in 2001. In 2003, McManus was the general contractor for the addition of the 4th floor to the West Wing of the main hospital building, over the Emergency Department. In 2009, a new four-story parking garage adjacent to Health Center 4 was constructed, again, with McManus as the general contractor. However, their latest and perhaps their greatest achievement on the Riddle campus is the completion of \$31 million, state-of-the-art, three-story, 78,000 square foot, LEED certified medical office building. This new building is the finest example of McManus's quality of work and a true testament to their ethical and fair treatment of their clients.

Recently, Riddle Hospital honored the McManus family and all of its employees at its 51st Man O'War Gala. As a very much-appreciated gesture on the part of the McManus family, there will be a scholarship fund created in their name for Riddle employees who desire to further their education in the field of healthcare.

Riddle views the McManus family as part of our family, and I make no hesitation in recommending John S. McManus, Inc. to anyone who desires the highest quality of work.

Sincerely,

Gary L. Perecko
President
